

FIGHT SONG

Friendship Song

(Tune: "Battle Hymn of the Republic")

("Tune: "Autumn to May")

The Cosmos in a battle for a race up to
the moon
The enemy the Blue team know that they
will meet their doom
for the Red team has the power that will
make the Astros fall
Red Cosmos conquer all

Oh once there was a mighty war
between the Blue and Red
"We're gonna beat the Cosmos,"
that's what the Blue team said
For many days they battled
for many days they fought
But now they've put away their guns
it's hand in hand they walk.

C H O R U S

Upward, Onward till the moon is ours to hold
Upward Onward till our story has been told
Marching, Marching put the Astros on the run
Red Cosmos we have won!

Now we are one friends now and forever

We've reached the moon but all for
naught

We are the red team Cosmos and we victory
in sight
The Blues will try their very best but we
will win the fight
Cause we've got determination
And we know we can't be stopped
Red Cosmos to the top

If we can't live on earth
In simple peace and harmony
without it what's it worth?
Together we will conquer space
The sun will be our guide
We'll find the other planets
with Astros at our side

Now we are one friends now and forever
Now we are one, Red and Blue together

C H O R U S

ALMA MATER

(Tune: "Scarborough Fair")

Summer's over the leaves start to fall
We've returned from our Saginaw
In our hearts the memories still burn
Another year til we can return

Trees start to blossom and snow goes away
Memories of a Saginaw day
Children in games, and flowers appear
Now we know that summer is near.

Snowflakes have fallen, and winter is here
We recall the Saginaw year
For summer days we now start to yearn
It seems so long til we can return

Sun is shining, the air is so clear
We return to friendships so dear
the time has come, the waiting is through
Saginaw we'll always be true
Saginaw we'll always be true

FIGHT SONG

(Tune: "French National Anthem")

We are the Astros marching on today
 With our colors held on high
 The apollo racing towards the moon
 with the blue team soaring in the sky
 We know our forces cannot be denied
 With the strength and the might of the
 Blue team

Red Cosmos had better beware
 Both teams are out to conquer space
 But the Astros know they'll never lose the
 Rise up and see it through race
 Brave men of mighty blue
 March on, March on
 For sure it will be
 A Blue team victory

Friendship Song

(Tune@ "There is a ship")

We went to war, we knew not why
 To beat the Red, that was our cry
 But take my hand, Let the battle cease
 So we can live as one in peace.

The time has come to reunite
 The friendships made before this fight
 So take my hand, Let the battle cease
 so we can live as one in peace.

The truce is made we give our trust
 We ask you now to walk with us
 So take my hand, Let the battle cease
 So we can live as one in peace.

ALMA MATER

(Tune: "The Sounds of Silence")

Let me tell you of a place
 that brings a glow upon our face
 where the sun gives off a shining light
 and in the nighttime there's a moon so bright
 that the summer is a wonderous time of year
 and we are here
 Within our hearts, Camp Saginaw

Come with us now and you will see
 the story of this growing tree
 lit by sunlight in our summer dream
 set upon a lovely stage of green
 all our memories and our friendships
 ever be
 within this tree
 our summer home, Camp Saginaw

To us this place will always be
 a picture of a growing tree
 with it's leaves that rustle through the air
 swaying to and fro without a care
 and whose branches stemming out across the
 plains

still remain

Will e're remember Saginaw
